Culture/ Values

Blessing Health System (Blessing) takes pride in the way employees treat patients and other customers, and how they treat each other. While providing services for Blessing, inside or outside of our facilities, we expect that your behavior is conducive to the healing nature of our environment and respectful to all.

Compliance/ Privacy

Because it is important to being a successful and trusted business, Blessing follows a detailed compliance program. Blessing does not tolerate unethical conduct from anyone.

A key element of the compliance program is privacy and confidentiality. You may see someone you know seeking care or hear information about a patient during your time on a Blessing campus. Sharing this information with others is a violation of the patient's right to privacy. Violations of privacy can result in legal prosecution and fines.

Smoking

Smoking and use of tobacco products (i.e., "chew"), including electronic nicotine delivery systems (ENDS) (e-cigarettes), is not permitted on any Blessing Health System (BHS) campus.

Access Control

Security Management can provide approved hard keys or key badges if necessary for the scope of work.

Emergency Preparedness Overhead Codes

Blessing Health System uses plain language to communicate emergency events. Follow the lead of staff when an emergency event is announced overhead.

FACILITY ALERT	
INCIDENT/EVENT	PLAIN LANGUAGE
Evacuation	Facility Alert + Evacuation + Location
Fire	Facility Alert + Fire + Location
Hazardous Spill	Facility Alert + Hazardous Spill + Location
